

Career Opportunity

Deeplaid Laboratories Limited

Company Overview

Deeplaid Laboratories Ltd. is a leading natural medicine Homoeo, Unani, Herbal and Pharmaceutical manufacturer in Bangladesh. The company started its journey in 2000 with the honest promise of providing quality medicines at affordable prices to people. Its state-of-the-art manufacturing plant located at Matuail, Jatrabari. 7 km from central Dhaka, is equipped with highly sophisticated and advanced facilities. The facility is planned and designed to meet the local as well as international demand both qualitatively and quantitatively. QC Team is playing a vital role for our organization. To support our QC team, we are looking for the following position.

Position: Executive / Sr. Executive Quality Control

Vacancy

- 02

Job Context

- Department: Quality Control
- Job Location: Factory (Dhaka)

Job Summary

The Botanist is responsible for identifying, sourcing, and researching medicinal plants and herbs used in Homoeo, Unani, and Herbal formulations. This role ensures the botanical authenticity, quality, and sustainability of raw materials while supporting the development of innovative and effective natural medicines.

Job Responsibilities

- Collect, identify, and classify medicinal plants and herbs.
- Ensure proper botanical authentication and nomenclature of raw plant materials.
- Evaluate the quality and purity of plant-based raw materials through organoleptic, microscopic, and phytochemical methods
- Assist in setting botanical specifications and standards for procurement.
- Work with R&D to develop and refine herbal, Unani, and Homoeo formulations. Conduct ethnobotanical and literature reviews on traditional plant uses and efficacy.
- Participate in routine and batch-wise botanical testing to ensure compliance with pharmacopeial standards.
- Detect and prevent adulteration or substitution of plant materials.
- Maintain detailed records of research, plant characteristics, sourcing data, and testing results.
- Contribute to technical documentation for product registration and regulatory submission.
- Train QC/QA and production personnel on plant identification and botanical handling.
- Promote awareness of medicinal plant conservation and sustainable usage.

Employment Status

- Full-time

Educational Requirements

- Bachelor's or Master's degree in Botany, from any Public University
- Specialization or knowledge in medicinal plants, ethnobotany will be preferred.

Experience Requirements

- Minimum 2-3 years of relevant experience in an herbal, Homoeo, or Unani medicine manufacturing environment.
- Experience in herbal drug R&D, raw material authentication, or botanical gardens is an advantage.
- Experience in handling of HPTLC is preferable

Additional Requirements

- Strong knowledge of medicinal plants used in Homoeopathy, Unani, and Herbal systems.
- Familiarity with botanical taxonomy, microscopy, and phytochemical screening.
- Good documentation and research skills.
- Ability to work with multidisciplinary teams (R&D, QC, Procurement, etc.).
- Strong observational, analytical, and communication skills.
- Age at most 30 years.
- Well conversant with MS office applications.

Salary

- Competitive remuneration package

Compensation & other benefits

- Festival Bonus, Year Ending Bonus
- Long term benefits - Provident fund, Leave Encashment & other long-term benefits as per company policy.

Last Date of Apply: 05-05-2025
