

Project Appraisal Analyst– Textile Projects

United Commercial Bank PLC, a trusted name in the financial sector of Bangladesh, is dedicated to being "United in Integrity, Growing Sustainably." We are committed to supporting industrial development through prudent financing and technical evaluation. To strengthen our Project Appraisal & Monitoring Unit (PAMU), we are looking for a competent Textile Engineer with relevant banking and industry exposure.

Job Grade : Senior Executive Officer and above

Division : Project Appraisal & Monitoring Unit (PAMU), Corporate-Credit Risk Management Division

Role Overview:

As a Textile Engineer in PAMU, you will be responsible for evaluating and monitoring large-scale textile projects financed by the bank. This role combines deep technical insight with financial understanding to ensure sustainable growth and prudent risk management. If you're ready to bridge engineering expertise with financial acumen, this is your opportunity to contribute to UCB's commitment to industrial development.

Key Responsibilities:

Project Evaluation: To assess textile project sites, verify production capacities, and review technical feasibility for machinery installations and operations

Technical Review: To ensure compliance with procurement guidelines, installation protocols, and specifications of textile machinery before and after deployment

Cost Validation: To conduct thorough analysis of machinery, raw materials, and production processes to validate project costs and economic viability

Workflow Optimization: To analyze and recommend improvements in production processes and resource utilization for enhanced efficiency

Regulatory & Financial Analysis: To evaluate duty structures for imported machinery and raw materials; ensure alignment of working capital limits with actual production needs

Monitoring & Compliance: To track project progress, conduct site visits, and ensure timely implementation of approved projects. Evaluate compliance with safety, environmental, and regulatory standards

Risk & Recovery Support: To participate in the assessment of default or underperforming accounts by identifying operational bottlenecks and improvement areas

Qualifications and Other Competencies:

- Bachelor's or Master's degree in Textile Engineering from a recognized institution
- Minimum 5 years of relevant experience, preferably with exposure to banking, project appraisal, or monitoring functions
- Strong understanding of textile manufacturing, machinery, cost analysis, and production systems
- Proven ability to assess technical feasibility and collaborate with cross-functional teams including relationship managers and credit analysts
- Excellent analytical, communication, and report-writing skills
- Willingness to travel frequently to project sites anywhere in Bangladesh as part of the monitoring and inspection process
- Candidates with prior experience in banks or NBFIs will be preferred
- Age not exceeding 38 years as of May 14, 2025

Application Process:

Interested candidates are invited to apply online through our Bdjobs portal on or before May 14, 2025.

Only shortlisted candidates will be called for interview based on suitability.

UCB PLC is an equal-opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
